The publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next edition of the directory.

Hill Directory Co., Inc., Publishers

INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, (publishers of the Williamston Directory since 1959), present to subscribers and the general public, this, the 1961 edition of the Williamston City Directory, which also includes Rural Route Residents.

Confidence in the growth of Williamston industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Williamston to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Williamston Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city and vicinity arranged in alphabetical order under appropriate headings—a catalog of all the activities of the City and vicinity. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a progressive community like Williamston, the necessity of having this kind of information up-to-date and always immediately available is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Williamston, and the name, official personnel, nature and address of each firm and corporation in the community.

J.P. Green Co

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. the names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, is the fourth major department.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Williamston and vicinity. There are more than 700 of these Directory Libraries, installed and maintained in the chief cities of the U. S. and Canada through the courtesy of members of the Association of North American Directory Publishers, under whose supervision the system is operated and of which Hill Directory Co., Inc., is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

WILLIAMSTON CHAMBER OF COMMERCE

August, 1960

Economic Data

Location

Martin County is situated in Eastern North Carolina on the South bank of the Roanoke River. Williamston, the county seat, was incorporated as a town in 1779. Located near the center of the county on the south bank of the Roanoke, Williamston is in the center of a geographic circle, which, at a distance of approximately 100 miles, encompasses the state capital at Raleigh, the busy seaport of Norfolk, historic Roanoke Island and the beaches of Dare County and the U. S. Marine Base at Camp Lejeune. It is easily accessible by land transportation of all kinds, has a navigable waterway, and is only 50 to 60 miles from commercial airports at Rocky Mount, Elizabeth City and New Bern.

Population

The 1960 U. S. Census gives the population for the county as an estimated 28,000 and for Williamston 6,904. The town is in the center of a trading area with a radius of 25 miles in which are located approximately 65,000 people.

History

The first mentioned date of its location in recorded history is 1587 when white colonists are said to have reached this far in exploring the Roanoke River. The explorers landed on the river bank for an overnight stay, but were driven back to their boats by the Tuscarora Indians in what may have been the first battle in history between the American Red Man and English speaking whites. First called Skewarky, the town was later renamed Williamston in honor of Colonel William Williams of the Martin County Militia.

Transportation

It has been the state and federal highways constructed that have served most to stimulate Williamston's emergence

as a hub. These highways, U. S. 13, 17, and 64 and N. C. 125, connect Williamston directly with Norfolk, Elizabeth City and Portsmouth to the north, with Wilmington and Charleston to the south, with Manteo to the east, with Raleigh and Memphis to the west, with U. S. Highway 301 to the northwest, and with Goldsboro to the southwest. These roads channel into and out of Williamston all kinds of commerce associated with eastern North Carolina. They also serve the heavy tourist and local passenger traffic, and the passenger buses of Carolina Trailways. Williamston has freight and express services over the facilities of the Atlantic Coast Line Railway Company, and it is located only 20 miles from the main line of the Norfolk and Southern Railway Company at the ACL terminus at Plymouth. Several truck lines serve Williamston, one of which, Thurston Motor Lines, has a modern terminal here. Nearest commercial Air Service is 48 miles west at Rocky Mount, North Carolina, which is served by Capital Airlines.

Utilities

As the Carolina Division and fifteen-county Albemarle District headquarters of the Virginia Electric and Power Company, Williamston is a virtual nerve center for power distribution over the entire keystone corner of the state. Out of the local office, also, nearly 20,000 electric customer accounts are handled including several towns and REA co-operatives served at wholesale. This office moved into a new quarter-million dollar headquarters building in December, 1958; and this building and its grounds are considered to be one of the section's most attractive commercial establishments. Williamston is also an important operations center for the Carolina Telephone and Telegraph Company which has 2,227 telephones in service. Both utilities have the most modern of plant equipment and have capacities for almost unlimited load growth.

Water for Williamston's needs is supplied from several deep wells which have a maximum capacity of about 1,750,000 gallons per day. The storage capacity totals 624,000 gallons and the present average use per day is approximately 500,000 gallons. The quality of the water from these wells is very good, with an average hardness content of as little as six parts per million. In addition to the well supply, water from the Roanoke River, which has a minimum flow of 538,800 gallons per minute, is satisfactory for industrial and domestic use after filtration.

Of some 25 miles of streets within Williamston, approximately 40 percent are surfaced, three more miles are graveled, and approximately 50 percent of the total are curbed and guttered. Refuse disposal is made on a state approved land fill located one mile east of town, and collections of refuse are made daily in the business districts and three times weekly in the residential areas.

Government and Taxes

Williamston has a commission form of town government composed of a Mayor and five commissioners elected as a group every odd calendar year. The town has an assessed property valuation, based at 25 percent of actual, of \$6,709,058 in 1958 with a \$2.00 per \$100.00 tax rate. The bonded indebtedness at the time was \$366,500 and other obligations of \$50,000.00.

Finance

To finance its growth, Williamston is served by two banks, Branch Banking and Trust Company and Wachovia Bank and Trust Company, with total deposits of \$8,875,105.04 (January 1, 1959), total resources of \$9,168,864.12 (January 1, 1959), and by the Martin County Savings and Loan Association with total assets of \$4,227,790.90 (December 31, 1958). In addition to these institutions, a number of insurance companies and other financing agencies find the Williamston area attractive for investment.

Cultural

Williamston boasts a full quota of civic clubs, approximately 15 in number, and their activities are numerous and varied. There are two libraries with a total of 3600 volumes. A \$30,000.00 library is under construction. A \$45,000.00 Masonic Temple is also being constructed.

Education

The school program covers from kindergarten, age of four, through the twelfth grade of high school with a full curriculum program. Two high schools and two grade schools have a combined enrollment of nearly 4,000 children of Williamston and the surrounding rural areas. Nearby colleges include East Carolina, 30 miles away at Greenville, Atlantic Christian, 55 miles away at Wilson, Chowan, 56 miles away at Murfreesboro, and State Teachers, 65 miles away at Elizabeth City. Martin County has an excellent system for school bus transportation and the state-supported education system is very progressive.

Recreation

The community is served by one drive-in and one uptown theatre. And on the south side of the town is located one of the most modern country clubs in eastern North Carolina. Boasting a lavish club house, a nine hole golf course and two tennis courts, with a growing fund for a swimming pool, the Roanoke Country Club is considered one of the section's show places, and hardly a week passes when it is not the scene of an area or sectional meeting. Williamston also has a swimming pool, operated by private management, and there is an unusually well balanced program of youth activities within the town.

For the sportsman, Williamston's position on the map could hardly be more strategic. The Roanoka River is rapidly gaining fame for its vast stock of game fish. Bass, crappie, and perch are increasing in large numbers not only on the river proper but within its tributaries as well.

The lowlands of the river abound in game of all kinds. The range of this game is from squirrel to deer, and the abundance of the latter has attracted governors and U. S. Senators and people of many other prominent positions to the section.

Within easy reach of Williamston, some 70 miles away, is one of the most widely known wild fowl hunting centers in the country. This refuge at Lake Mattamuskeet is the winter home of thousands of Canadian geese which attract hunters from widely spread parts of the country.

Health

Six physicians, two dentists, and two optometrists serve the town. Martin General Hospital has 65 beds, and the Martin County Health Center provides public health services to the community.

Agriculture

A rich agricultural region, Martin County has more cultivated area than many coastal counties, due mainly to its higher ground. Many large and productive farms are located on the high plateau bordering the Roanoke River in the northern part of the county. Williamston, the county seat, is the marketing center for the surrounding rich agricultural area. Tobacco, peanuts and corn are the leading cash crops in the county. Other crops produced include cotton, Irish potatoes, sweet potatoes, soy beans, hay and oats. The raising of livestock is becoming increasingly important within the county, and more dairy products are being sold than ever before. Poultry raising has been on the rise for the past two years. The number of hogs raised for market has also rapidly increased. Sixty-nine percent of the land is in farms, 43 percent of which is wooded and 36 percent harvested. The 2,000 farms in the county average approximately 50 acres of cleared land. Fifty-nine percent of the farms are operated by tenants and 41 percent by owners.

Industry

The industries are varied, ranging from fertilizer, insecticides and irrigation products to several large sawmills using the abundant supply of the timber in the area, a plywood plant, a veneer plant, tobacco marketing warehouses, peanut processing plant, four oil terminals, a truck terminal, a wood working plant, and a tobacco redrying plant and a food processing plant, Martindale Foods, Inc. The latter, which was organized through the efforts of the local Chamber of Commerce, is recognized by state leaders as one of the most outstanding projects to ever be developed by local initiative. The Industrial Development Committee of the Chamber of Commerce has secured a sewing plant to start operation within the next few days with approximately 150 employees, the majority which will be women. Also, located in the eastern portion of the county is a large pulp mill which manufactures paper for commercial packaging.

Climate

Williamston is approximately 72.5 feet above mean sea level and has an average annual precipitation of 49.73 inches which is almost perfect for its agricultural economy. Its average temperatures for January and July 44.2 and 79.4 degrees Fahrenheit, respectively, are also conducive to agriculture and to comfortable year-round living.

Labor

The Williamston labor market consists of approximately 50 percent native born white and 50 percent native born negro citizens. These groups can and do work together harmoniously in Williamston. No major nor long-time strikes or other important labor disturbances have been recorded for many years. An abundant supply of potential workers is in the area; a re-

cent labor survey shows a complete picture of the labor market for this immediate area.

What's In Williamston?

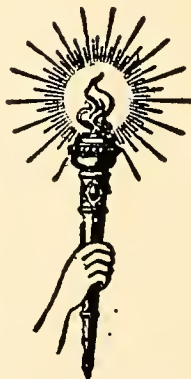

FIRST: A community spirit which has created a busy and attractive town with the Roanoke River as its principal natural resource and a wonderful year-round climate. This spirit was manifested vividly when the town voted recently in an overwhelming manner on a bond issue for improvements to the water, sewerage and a new town hall.

SECOND: An agricultural and trading center of far greater proportions and significance than mere figures disclose. We have a good tobacco market and is one of the leading counties in the state raising the Virginia type peanut.

THIRD: The "Hub" or trading and cultural center for many of the inhabitants of this upper coastal plain region of eastern North Carolina. Superb roads and bus transportation link Williamston with many of the small towns within a radius of from 50 to 150 miles.

FOURTH: A town of home-owning, church-going, civic-minded people who have been accustomed, through the city's recent rapid growth to welcoming newcomers of like calibre, and absorbing them into the county life.

The town, 180 years old, is young in spirit, and although it looks backward with pride, it knows that its future lies not in its history, but is being molded by what is done today. Looking toward an increasingly brighter future, the people of Williamston have geared themselves to inevitable changes in the face of their town. The Williamston Chamber of Commerce stands ready at all times to answer inquiries concerning the town. It also stands ready to show visitors the present day Williamston and to discuss its potentials with them.

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

MR. CITIZEN!

**CORRECT INFORMATION
IS VALUABLE TO YOU!**

-----◆-----
Cooperate with the City Directory enumerators to see that your name and those of your family are correctly listed in each edition. *Your name, listed correctly in the City Directory, is a great asset.* This has been proved thousands of times, especially in cases of employment application, proof of residence, questions relating to citizenship, applications for welfare assistance, distribution of mail, etc. Be better established . . . be on record as a local citizen by seeing that your name is not missed or incorrectly listed in the Directory.

"r"— RESIDENT

"h"— HOUSEHOLDER

"r" AND "h"

Two important symbols are used in your City Directory. The symbol "r," before an address stands for "Resident" That person resides at that address but is not the head of the family or family head. The symbol "h" stands for "Householder"—the person in whose name the home is occupied.

Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

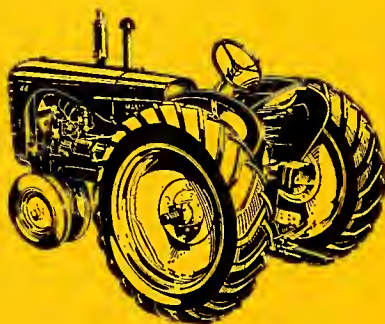

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

EMPLOYED

HUSBAND'S NAME

HOW TO KNOW WHETHER A WIFE IS EMPLOYED ... AND WHERE SHE WORKS

This vital information may be secured instantly from your City Directory. Every person of Directory listing age (18 years and over) is listed, including both men and women. The wife is listed with her husband, and also is listed separately if **steadily employed**.

EXPLANATION

Wives names are listed with husbands, the name of the wife is shown in parenthesis following the husband's as follows: Gregory Richd M (Mary L).

In case of a widow by death, wherever possible the name of the deceased husband is shown in parenthesis as follows: Gregory Mary L (widow Richd M).

The occupation and place of employment is listed as follows: Gregory Richd M (Mary L) slsmn Starr Clothing Co.

Names in heavy type denote advertisers in this City Directory.

Ownership or co-ownership of a firm is indicated by showing the individual's name in parenthesis following the firm name, as follows: Carson Grocery Co (Geo B and Paul N Carson).

A firm name enclosed by parenthesis indicates ownership or co-ownership by the individual whose name precedes, as follows: Carson Geo B (Carson Grocery Co).

The head of the house is indicated by h preceding the street address, other members of the family and roomers are indicated by r preceding the street address.

The word street is not used in addresses. Where a designation av, cir, ter, etc., does not appear, the designation st is understood.

**HILL'S
WILLIAMSTON****Directory of Householders, Occupants of Office
Buildings and Other Business Places, Including
a Complete Street and Avenue Guide****1961**

Copyright, 1961, by Hill Directory Co., Inc.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting street being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house-owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol @ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes nor responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers.

The word street is not used in addresses. Where a designation av, cir, ter, etc., does not appear, the designation st is understood.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers and have no other significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants, but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

WHY A YELLOW PAGE SECTION?

*It is customary to include
a Yellow Page Section in
the City Directory because:

It gives business firms the
opportunity to elaborate upon
a description of their products
and services impossible in
the limited space of regular
Alphabetical and Classified
listings.

★

The Yellow Page Section is a necessary supplement
to the regular listings; it is good City Directory in-
formation . . . EXTENDED.
